Dear All,

The Club is currently in the process of trying to establish some activity during the summer months after the Rugby has finished.

For a few years now there have been some musings about starting a cricket team. However it has only been just recently that a few things have fallen into place which has made starting a cricket team from the club a possibility.

Since then myself and MC met with the Cheshire Cricket Team Development officer, and he was very encouraged at what we could offer in the form of a cricket team, so much so that we have formed a founding committee, to take AOMRUFCCC through the early stages of set up.

Phase 1 is to prepare our wicket. We are currently liaising with a number of specialists, to see what the next steps will be to ensure we have a playable surface. Once this has been sorted, we will then be in a position to start arranging fixtures, and looking into applications to one of the numerous cricket leagues.

One thing that is crucial to all of this, as with all things Ashton is, your help and participation. Without players we cannot play. Dave Barker and Sean Ferguson have agreed to help me with the formation of this, but the real help will be when the team gets going.

So we can get a rough idea about the numbers that are interested in playing cricket at the club, please fill in one of these very simple forms, and e-mail it to me at mebestmatewes@gmail.com

Please also let us know if you would like any further involvement other than playing or if you have any experience that may be useful, as I have not set up a cricket team before. So if you would like to captain, coach, help with administration, or do you already play for a team, and will be able to arrange a fixture for us? Just let any of us know. Just because we started the process, does not mean we are necessarily the best people to take it forward.

Just to make one thing clear also.... This is AOMRUFCCC; we are in no way a branch of the rugby club. This is an addition to the rugby club. We already have a 1st XV, 2nd XV, 3rd XV; we are just trying to add a 1st XI to these teams.
